

## News about the year of 2022

2022 

# THE NORMA I. LOVE FOUNDATION

 2023

A non-profit organization 501(c3)  
TIN: 75-2473456

**Hello my friends from all over the world!** Here we are in our little part of the jungle of La Mosquitia, Honduras letting you know what has happened in 2022. The year of 2021 was very sad and difficult for many of us here, especially when we were hit with torrential weather that destroyed many plantations and many people were left living without homes or even a small shelter. I thank God that this last year we have not suffered from any hurricanes or storms.

Our Education, Health and Environmental projects have continued to move forward with more strength and determination as we continue to support all of the communities that we can in La Mosquitia.

**EDUCATION:** The Norma I. Love Foundation collaborated with the Health and Education Department personnel of Mocerón and went to the schools to teach the children about safety measures; specifically talking about the reasons for wearing masks, the correct way to wear a mask, using hand sanitizer, proper hand washing and social distancing to help everyone be a little safer and reducing the risk of getting COVID-19.

The students, parents and teachers of the Cacota community were very happy to receive donations from the Norma I. Love Foundation donors that consisted of school supplies of notebooks, pencils, crayons, markers, rulers, educational toys, school uniforms, clothes and shoes.

**HEALTH:** With the help of the Rotary Clubs of Texas and Roatan, donations of special medicines were made available which helped the village clinics of Mocerón, Sirsirtara, Rondin, and the Puerto Lempira Hospital of La Mosquitia. The Norma I. Love Foundation and many villagers throughout La Mosquitia were grateful for these donations because the medicine was able to alleviate many illnesses.

Thank you to the Rotary Clubs of Texas and other donors who have been so kind to the children of La Mosquitia by sending donations that were able to provide milk, oatmeal and sugar for over one hundred malnourished children.

We want to give a huge shout out of appreciation to Dr. Brian of Send Hope and Kids Against Hunger for your donation of the nutrient-rich rice that you have donated multiple times throughout the year for the malnourished children.

The Norma I. Love Foundation would like to thank our friends at the International Health Service; a large brigade composed of doctors, nurses, assistants, ultrasound technicians, pharmacists and volunteers. We are also grateful to the Texas Lions Club, for their huge donations of reading glasses and sunglasses donated to more than one thousand people in different parts of the Mosquitia region.

Doctors & volunteers

Dra. Claudia of San Pedro Sula

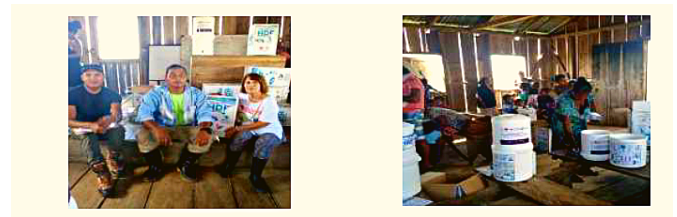

Dra. Yosselin of Copan

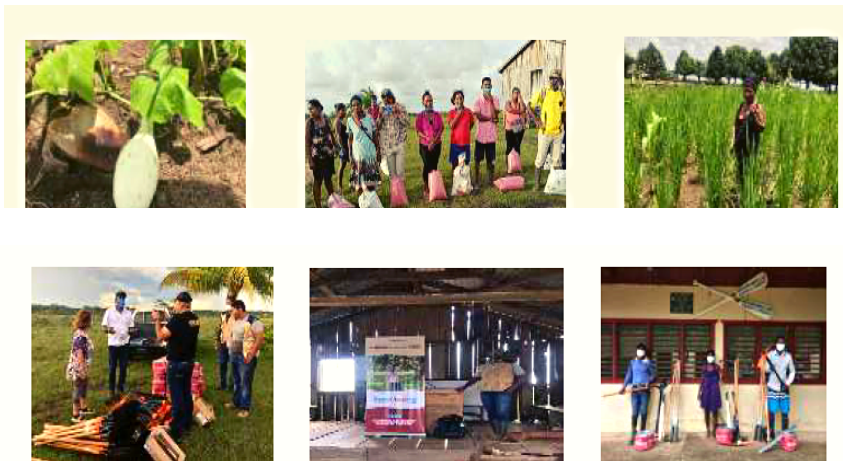

Doctors & Volunteers

The Aba Umalaly Project from Taiwan aided Ayuda en Accion with water filters called Microbiological Purifying Filters that are being donated to different communities in the Mocoron region.

**ENVIRONMENT:** The Project with Banco Mundial, Ayuda en Accion and the Yamny Iwanka Project, in conjunction with the Norma I. Love Foundation approved the project of establishing gardens and orchards with the Miskito families of Salto. These gardens and orchards include rice, corn, bananas, cassava, malanga, vegetable and fruit trees donated by Ayuda en Accion to 25 families in Salto.

We also welcome any organization or individual who would like to join us to develop more projects to minimize famine for the future, as well as how to take care of our environment that gives us life.

The Pana Project which was created by German volunteers, Ayuda en Acción, the Yamny Iwanka Project, and the Norma I. Love Foundation supported some of the farmers who have cocoa plantations in La Mosquitia. These organizations helped by planting avocado grafts and provided them with new orchard trees with the vision that people can survive from their plantations if a horrible famine develops in the world.

The hydroelectric project continues it's research by bringing in engineers from different hydrologist specialist.

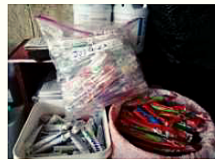

## Our Generous Donors

\*\*\*Thank you to Ayuda en Acción and the Aba Umalaly Project of Taiwan for donating Microbiological Purifier Filters.

\*\*\*Thank you to the World Bank, Ayuda en Acción, and Yamny Iwanka Project for the Integral vegetable gardens and orchards Project, the donated tools and seeds.

\*\*\*Thank you to the Rotary Club of Texas and Roatan donated medicines to clinics in Mocorón, Sirsirtara, Rondin and Puerto Lempira. Thank you also for donating milk, oatmeal and sugar for malnourished children in the communities of Mocoron, Walpakiakira, Salto, Sikia Auhya and Rondin.

\*\*\*Thank you to Lexi Martin, her friends and National Farm Life Insurance Company from Texas for donating toys, clothes, food, toothpaste and toothbrushes for the children of Mocoron, Salto, Walpakiakira, Sikia Auhya, Wajabisban and Rondin.

Thank you to the Pana Project who donated avocados to the villagers of Mocoron, Wajabisban, Salto and Sirsirtara.

Thank you to Steve Vincent and friends who donated new solar batteries that were set up in the computer center. We are so grateful for these because they will give energy to the entire compound, which will help in so many facets of work with the mission of the foundation.

## Gracious Donors

The Norma I. Love Foundation would not survive without our gracious donors who have sent items in the containers, as well as those of you who have continuously sent monetary donations. May the Lord bless you and your families.

- \*\*\*Arlington Texas Rotary Club
- \*\*\*Stephanie and Steve Shelton of Cici's Pizza in Arlington, Texas

**5107 Atlantis Terrace**  
**Arlington, Texas 76016**

May the year of 2023 find us all feeling loved, appreciated, and respected for who we uniquely have been created to become. My dreams of a better future for the generations to come will continue as long as I can live to serve the people of La Mosquitia. I hope that one day many of you will come to my small corner of this world to see what has drawn my heart here for so many years. I hope you all realize that my mission here has been made possible only by you, my dear friends. I pray that you will be healthy, happy and that you will know how much you mean to the families of La Mosquitia

Blessings,

Norma I. Love

President of The Norma I. Love Foundation
